1946 DESCRIPTIVE LIST OF  
**GLADIOLUS**

TWENTY-THIRD SEASON

ARTHUR A. ARENIUS  
59 BLISS ROAD, LONGMEADOW 6  
SPRINGFIELD, MASSACHUSETTS

CONNECTICUT YANKEE

## FOREWORD

Another year has passed and this gives me an opportunity for my annual "Thank You" for your valued and continued patronage. The biggest war in history has ended and once more right has been triumphant over wrong and man can again continue his peace time pursuits of life, liberty and happiness.

Many folks inquire about the boys so I'll just mention that they are all well. "Art" received his honorable discharge from the army recently and I guess the "Old Man" was prouder of the two rows of ribbons than he was. "Al" is sweating it out in China while "Ed" is still sailing the wide Pacific.

This past season was the wettest in my 20-odd years of growing glads. Varieties were vying to out-do each other. A good year to judge the maximum performance of many doubtful varieties. Glads certainly like plenty of water provided there is good drainage. The bulb crop turned out fine and bulblet growth is larger than usual.

Bulbs are still on the short side which means the demand exceeds the supply especially in the better varieties, therefore prices are about the same as last year. Of course on the newer varieties stocks are usually small and are apt to be sold out.

Early ordering is still advisable.

START RIDING A HEALTHFUL HOBBY. GROW GLADS!

## GUARANTEE

I guarantee satisfaction. If for any reason you are not satisfied, please write me and I will do my utmost to make satisfactory adjustment. Likewise, if you are pleased, I will be glad to hear of it, especially mention varieties that do well for you.

## ORDER EARLY

We both benefit when you order early. Early orders get the choicest bulbs with less chance of being out of any variety. Also, I have more time to put up your order, less chance of error and less overtime. Please order early!

With every order cultural directions are included.

Visitors are always welcome at my fields during the blooming season.

LAVENDER PRINCE

## PLEASE READ BEFORE ORDERING

Cash with order, or 25% deposit if future delivery is desired, balance C.O.D. Delivery charges prepaid on orders of \$1.00 or more, except as elsewhere stated. If less, add 15c toward shipping cost. No order taken for planting sizes (No. 5 and No. 6) after Apr. 15th, and for large bulbs after May 15th. Can furnish mixtures until June 15th. NO SINGLE ITEM LESS THAN 10c. I ship anytime. Yes! I give overcount. Please do not hold me to any obvious errors that may appear in this price list.

If your order contains bulbs from the General List (which are Prepaid) and the Quantity List (which are not Prepaid) I will send the bulbs express collect and put in enough extras to more than offset the express charges.

Money orders should be made out to: Springfield, Mass., Postoffice.

### VARIETIES CAPABLE OF WINNING BEST SPIKE IN THE SHOW

Some enthusiasts are not satisfied any more in just winning a mere Blue Ribbon in a color class. They want to win nothing less than the "Best Spike in the Show." I have been often asked what varieties are capable of doing so. The question would start a hot discussion among any group of glad fans, but nevertheless I am going to stick my neck out and suggest a few which I think can do so with maximum culture.

Algonquin	King William
Athlone	Leading Lady
Big Top	Marion Pearl
Conn. Yankee	Mercury
Corona	Miss Wisconsin
Cover Girl	Picardy
Elizabeth The Queen	Topflite
Flying Fortress	Tunias Mohamet

RED RIVAL

# New Introductions for 1946

I have been fortunate in getting some exceptional seedlings this year. Three are from Jim La Salle. Have bought the entire stock of Topflite, which to me is the most beautiful glad I have ever seen; nor is there anything wrong with its other qualifications, except that the stock is not large. Jim complained he hated to part with his pet but would feel better in the knowledge that glad growers could enjoy one of the products of his labors. (Have you ever tried to raise 3 acres of seedlings?) We both agree that this is about the finest color in Glads we know of.

Fabulous is one of those unbelievable blotch varieties, having a double blotch in the form of a half circle. Very distinctive and otherwise fine.

Pink Charm is a solid pink which Jim aptly calls his waxy pink. Think this will go places because it is early and a very good propagator.

Peggy is a seedling from Roy West named in memory of his wife who for years had been raising seedlings. Had a few for trial this summer and it is just the shade of light lavender I have been looking for. Blooms not large, about 4" but clear and never flecks and it grows tall.

Abigail and Yankee Lass are from Jim Milo, who bought the entire stocks of both varieties. Haven't seen Abigail but it has won an Award of Merit at Md. Trial Gardens and several firsts at the shows. Yankee Lass is a sister seedling of Conn. Yankee with the same perfect placement except that it is a beautiful flesh or light pink. Bill Schenetsky, its originator, certainly has a record to be proud of with his King William, Conn. Yankee and now Yankee Lass.

**TOPFLITE (La Salle).** A rosy pink, self color, fairly deep (not washed out) . . . open 8-5" florats on a wiry stem 55" tall . . . Double row placement . . . Midseason . . . Medium propagator.  
Bulbs \$10 any size. No bulblets

**FABULOUS (La Salle).** A deep pink with a double, half circle blotch . . . Different . . . The inner blotch is a bright, cherry red, separated from the pink by a light cream half moon . . . Opens 6-5" florets on a strong stem, 60 inches tall . . . Double row placement . . . Midseason . . . Good propagator . . . Straight grower and a very fine cutter.  
Bulbs \$5 any size. No bulblets

**PINK CHARM (La Salle).** A solid, medium deep pink with a decided waxy appearance. Color darkens very deep in the throat. Opens 6-5½" florets on a 50" spike . . . no crooks . . . Double row placement . . . medium early . . . Very good propagator . . . Will make a fine commercial.  
Bulbs \$5 any size. No bulblets

**PEGGY (West).** A clear light lavender, self color which never flecks. Opens six 4¼" florets on a spike 60" tall. Double row placement. Early midseason. Good propagator.  
Bulbs \$5 any size. No bulblets

**ABIGAIL (Myers).** A lavender about the shade of Minuet. Opens 8 medium sized blooms on a 50" spike. Award of Merit, Md. Trial Gardens. Won 3 awards at the Maryland show this past summer. Also best in its class at the Tri City Show also in the Conn. Show.  
Bulbs \$5 any size. No bulblets

**YANKEE LASS (Schenetsky).** A flesh or light pink, solid clear color. Opens up to 10-5" blooms on a tall straight spike. Fair to good propagator. Blooms in 85 days. A sister seedling of Conn. Yankee. I think the best in this color.  
Bulbs: Large, \$10; Medium, \$7.50; Small, \$5.00. No bulblets

	10	.80	.50	.30		
CORONA (Palmer) Creamy white with a halo of rose stipling on edge of petals. Opens 6 large rather loosely attached blooms on a 6 ft. spike. This variety is very much in public favor because it is strikingly different and capable of winning at the shows and also is in demand as a cut flower .....	1	.15	.10	2-.10	Pkg.	.20
	10	1.20	.80	.40		
COVER GIRL (Arenius-La Salle) Very large, medium pink, opening 10-12-5 1/2" flowers on a long flowerhead. Giant foliage and spikes grow up to 6 ft. in height. This variety is capable of winning championship spike in any show. Has won many firsts in its color class at the shows this past season. Also won an Award of Merit at the Maryland Trial Grounds this past summer, which was one of two such awards made.....	1	2.00	1.50	1.00	10	2.00
	10	16.00	12.00	8.00	100	15.00
CRINKLE CREAM (Ellis) Ruffled light yellow. Opens 5 wide open blooms on a tall spike. A fine light yellow.....	1	.75	.50	.35	10	.50
	10	6.00	4.00	2.80	100	4.00

	10	—	8.00	6.00		
DR. WHITELY (Riley) Clear apricot yellow. Opens 6 large blooms on a medium length spike. One of the best buff colored glads.....	1	.40	.30	.20	10	.25
	10	3.20	2.40	1.60	100	2.00
EDITH GRACE (Harder) White with red throat blotch. Opens 6 medium sized blooms on a fairly tall spike. Would like it better if the color was clearer.....	1	.15	.10	2-.10	Pkg.	.25
	10	1.20	.80	.40	100	1.50
EGLANTINE (Sckeer) A very large exhibition pink of excep- tional color and form. It has a very serious fault of lacking height below the first bloom. Bulblets do not germinate well with me. However, if you can grow it well, it is quite breathtaking in its beauty.....	1	10.00	7.50	5.00	10	5.00
ELIZABETH THE QUEEN (White) Very beautiful ruffled lavender opening 6-7 blossoms at once. Spikes are straight and flower head long but lacks height below first bloom. Very popular and prize winner many times at the shows.....	1	.35	.25	.15	10	.25
	10	2.80	2.00	1.00	100	1.50
ETHEL CAVE-COLE (Cave) Light pink which opens up to 8 wide open blooms on a fairly tall spike. Sometimes comes flecked and stems not as stiff as should be to hold up such a heavy flower filled spike. Proving popular as a cut flower and also winning at the shows.....	1	.15	.10	2-.10	Pkg.	.25
	10	1.20	.80	.40		
FIREBRAND (Butt) New red from Canada. Medium red with two white lines on lower petals. Opens 8 on a 20 bud 50" straight spike. Looks promising.....	1	—	1.50	1.00	10	2.00
	10	—	12.00	8.00		

	Large Per 1 1/4" up		Medium 3/4"-1 1/4"	Small 3/8"-3/4"	Bulblets Per	
<b>FLYING FORTRESS (Wilson)</b> Immense lavender grey smoky. Opens up to 12-6" florets on a 30" spike. Should easily win in its class at the shows but color not suitable for commercial purposes. Placement not always good.....	1	2.00	1.50	1.00	10	2.00
<b>FRANCIS M. IRWIN (Wilson)</b> Deep rosy lavender with deeper blotch in throat. Makes a long flowerhead of 20 buds with up to 8 open, but lacks height below first bloom. Used commercially, however.....	1 10	.15 1.20	.10 .80	2-.10 .40	Pkg.	.20
<b>FUSCHIA BELLE (Polinsky-Almey)</b> A new shade of red, perhaps best described as a fuschia red. Have not seen enough of this to comment .....	1	5.00	—	—	10	5.00
<b>GARDENIA (Scheer)</b> Creamy white, opens 6 medium sized florets on a tall spike. A reliable commercial white. A 100% cutter.....	1 10	.10 .80	2-.15 .50	4-.15 .30	Pkg.	.20
<b>GENGHIS KHAN (Scheer)</b> Ruffled light pink, blending to a light cream throat. Opens 6 large blooms on a long flowerhead. Very pretty pink.....	1	2.50	1.75	1.00	10	2.00
<b>GOAL (Ellis)</b> Light orange, blending to a cream throat. Opens 6 very large florets on a long flowerhead. Spikes up to 6 ft. tall.....	1 10	.30 2.40	.20 1.60	.10 .80	10 100	.30 2.00
<b>GOLD DUST (Pfitzer)</b> Early deep yellow. Medium sized blooms on a tall, straight spike. Used extensively as a yellow cut flower variety.....	1 10	.10 .80	2-.15 .50	4-.10 .30	Pkg.	.20
<b>GOLDEN STATE (Wheeler)</b> A new yellow that is supposed to be quite an improvement on present yellows in size and number open. Haven't seen enough of it to venture an opinion.....	1	1.00	—	—	10	1.00
<b>GRACIE ALLEN (Wilson)</b> A clear deep scarlet self color. Opens 8-5" blooms on a long flowerhead. Fine propagator of bulblets that germinate well.....	1	2.00	1.50	1.00	10	1.50
<b>GRAND MASTER (Love)</b> This variety makes a fine exhibition spike of medium sized blooms of deep red self color with up to 10 open on a tall spike. Very showy.....	1 10	.15 1.20	.10 .80	2-.10 .40	Pkg.	.25
<b>GRETA GARBO (Pfitzer)</b> Light rose pink with cream throat. Opens 6 wide open blooms on a tall, slender stem. A very beautiful variety and good cut flower habits. A glad that will enhance any gladiolus collection.....	1 10	.15 1.20	.10 .80	2-.10 .40	Pkg.	.25
<b>HARMAU (Bath)</b> Ruffled orange red with a rosy overtone, deeper throat. Opens 6 large florets on a tall wiry stem. Different and beautiful.....	1 10	.25 2.00	.15 1.20	.10 .80	10 100	.20 1.00
<b>HIGH FINANCE (Wilson)</b> Light orange-grey with cream throat. 8-5" well placed blooms on a long spike. Fine smoky .....	1 10	.40 3.20	.30 2.40	.20 1.60	10 100	.30 2.00
<b>HINDENBERG'S MEMORY (Pfitzer)</b> Clear medium red. 6 large blooms on a tall spike. Has won many prizes. Blooms rather loosely attached to stem but a well grown spike is certainly an eyefull.....	1 10	.15 1.20	.10 .80	2-.10 .40	Pkg.	.25
<b>IMPERIAL PURPLE (Arenius)</b> Deep bright clear purple, practically a self color. Opens 5-5" blooms on a tall straight spike. Does not propagate too well and I wish it would open more but still think it is the best colored purple we have .....	1 10	.35 2.80	.25 2.00	— —	10 100	.35 2.00
<b>INTRUDER (Graff)</b> Scarlet red with a small orange feather in throat. Opens up to 10 on a tall spike. Has a fine record of winning at the shows.....	1	3.00	2.00	1.00	1 10	.30 2.40
<b>JEANIE (Pruitt)</b> Beautiful clear pink with cream throat. Opens 6-5" blooms on a tall, slender spike. Very attractive pink that should be more widely grown. Makes rather rough looking bulbs.....	1 10	.15 1.20	.10 .80	2-.15 .40	100	.50
<b>J. S. BACH (Pfitzer)</b> Early deep salmon pink which opens up to 10 large blooms on a tall straight spike. A fine early cut flower.....	1 10	.10 .80	2-.15 .50	4-.10 .30	Pkg.	.25
<b>JULES AMOTT (Wilson)</b> One of Wilson's older reds that is still good. A medium red which opens up to 8 on a tall straight spike.....	1 10	.20 1.60	.15 1.20	.10 .80	100	.35
<b>KING ARTHUR (Arenius)</b> Large ruffled deep lavender. Fine color but does not always make a good spike.....	1 10	.10 .80	2-.15 .50	3-.10 .30	Pkg.	.20

	Large Per 1 1/4" up		Medium 3/4"-1 1/4"	Small 3/8"-3/4"	Bulblets Per	
KING CLICK (Wilson) Medium shade of red. Opens 8-5" blooms on a long flowerhead and a 5 ft. spike. Has a long record of wins at the shows.....	1 10	.25 2.00	.15 1.20	.10 .80	25 100	.50 1.50
KING LEAR (Palmer) Ruffled reddish purple. Opens 8 large blooms on a tall spike. Florets rather loosely attached to a stem that bends over easily. Being used commercially because it's early and not many purples available.....	1 10	.10 .80	2-.10 .50	3-.10 .30	Pkg.	.20
KING TAN (Wilson) Rosy tan, practically a self color. Opens 8 large blooms on a tall spike. Fine smoky .....	1 10	.25 2.00	.15 1.20	.10 .80	10 100	.25 1.50

LANTANA (Palmer) Pastel shade of orange and yellow. Opens up to 8-4 1/2" florets on a fairly long flowerhead. Lacks height below the first floret. Very early. Most beautiful and if it only grew taller would be a great cutflower. Heavy propagator .....	1 10	.35 2.80	.25 2.00	.15 1.20	10 100	.25 2.00
LARIME (Wilson) Deep orange opening 6-8 large blooms in a double row placement on a long flowerhead. Lacks height of spike. Prize winner.....	1	1.00	.75	.50	10	.75
LAVENDER PRINCE (Arenius-La Salle) A King Arthur seedling and an improvement on that variety. Deep lavender which opens 6-5" blooms on a 55" straight spike. Won 1st with a basket of these at the Tri City Show in stiff competition. It is being bought heavily by commercial growers for a cut flower, consequently my stock is not too large even though it is good propagator and produces nice healthy good looking bulbs.....	1 10	.75 6.00	.50 4.00	.35 2.80	10 100	.75 6.00
LAVENDER QUEEN (Arenius) Deep violet lavender, usually clear, sometimes flecked deeper. Tall, straight spike with 6-8 blooms well placed. Midseason. Its use as a commercial lavender has been increasing yearly.....	1 10	.10 .80	2-.10 .60	4-.10 .40	Pkg.	.20
LEADING LADY (Johnston) Creamy white sport of Picardy. Like that variety except color. This variety has been in the spotlight the past two years and has won numerous firsts and grand championships. In large demand by growers as the best white for cutting and as a shipper.....	1 10	.60 4.80	.40 3.20	.25 2.00	10 100	.60 5.00
LEGEND (Fischer) Light salmon pink with white throat. Opens 6 large florets on a tall spike. Very beautiful and a coming cut flower.....	1 10	.25 2.00	.15 1.20	.10 .80	10 100	.20 1.00
MAGNOLIA (Palmer) Light rose. Opens 6 large florets on strong straight spike. Beautiful light pink.....	1 10	.10 .80	2-.10 .60	4-.10 .40	Pkg.	.20

## Unlabeled Collections of Assorted Glads

Many folks desire to plant glads in the garden for cut flowers, but do not care to fuss with the labeling of the different kinds. To satisfy this need I make up special collections of named varieties but unlabeled. In making up an assortment of 100 glads, I usually put in 35 varieties of 3 bulbs each, thus making sure of good color balance. However, if you prefer or dislike certain colors, just mention it and I will act accordingly. These same varieties if bought under name would cost several times the purchase price.

# CARE AND CULTURE

## SOIL AND FERTILIZER

Glauds do well on most any soil if they are planted in the open garden where there is plenty of sunshine. You may work well rotted manure into the soil in the Spring by putting it into the bottom of your planting trench, then covering with an inch of soil; then planting your bulbs. Vigoro is also good. Two or three applications of commercial fertilizer may be made on the surface along the rows during the growing season before the plants bloom. Any fertilizer should be kept from direct contact with the bulb or foliage. If you wish to grow immense spikes, you must fertilize heavily; your plants must also have at least an inch of water every three or four days.

## PLANTING

Work soil to a depth of eight inches, or ten inches will be better. Large bulbs should be covered with not less than six inches of soil. The deeper planting helps keep them upright when blooming. Smaller bulbs should be planted not less than two inches. You may regulate your distance apart in the row by the space you have. Plant rows anywhere from 2 ft. to 3 ft. apart. Plant in rows from two to six inches apart, depending on space and number of bulbs. They do well planted close together, but require more water.

## DIGGING AND STORAGE

Our early stock is taken up in early October. The bulbs should be taken up within six weeks to two months after blooming but before the tops begin to get brown. Even if the tops are green, bulbs should be taken up before the ground freezes deeply. After digging, cut off the tops close to bulb and put in screen bottomed tray to cure. They should have plenty of ventilation while curing and must not be put in containers more than three or four inches deep. At this time Napthalene flakes (procured from your druggist) may be safely scattered on the bulbs which are dormant. Use at the rate of an ordinary handful per 100 bulbs. A little more or less won't do any harm and it will drive away any thrip that may be harboring an idea of wintering on your bulbs. By the time you are ready to clean the bulbs most of the flakes will have evaporated. A note of warning! DO NOT use them in the Spring when root nodules appear at the base of the bulb, as they are harmful and prevent normal growth of the plant. Use them right after digging or early winter. Stir them every few days and keep dry. In four weeks they will be cured so that old bulbs may be removed from the bottoms. They may then be placed in storage.

The storage temperature is best at 40 to 50 degrees. Your storage room should be dry, cool and ventilated and as near uniform as possible as to temperature. It is well to look at your bulbs every two or three weeks. If they are showing signs of too much moisture or looking mouldy, dry them out and give better ventilation. Keep them in small containers and spread thin.

# FORMULAS FOR SPRAYS AND DIPS

## Thrip Spray for Blooms

3 ounces of Tarter Emetic

1/2 lb. of sugar

3 gallons of water

Mix well and spray weekly after foliage is in third leaf. Sure death to thrip.

## Bicloride of Mercury Dip for Bulbs

1 oz. of Bicloride of Mercury

7 gallons of water

Soak 10 to 12 hours immediately preceding planting. Plant wet. Must be used in earthen or wooden containers. Kills thrips and is also beneficial for control of scab.

## Lysol Dip for Bulbs

1 tablespoon of Lysol

1 gallon of water

Soak 4 to 6 hours immediately preceding planting. Highly recommended for control of bulb diseases.

## New Improved Ceresan Dip for Bulbs

1 oz. of N. I. Ceresan

3 gallons of water

Newest of the bulb dip treatments. Considered the best for treatment of disease of bulbs but must be used with caution. Weigh carefully and do not leave in solution more than 20 minutes. Plant immediately after dipping while bulbs are wet.
